**REQUEST TO CORRECT PATENT APPLICATION PUBLICATION****I. INTRODUCTORY COMMENTS****• REQUEST FOR CORRECTION OF PATENT APPLICATION CORRECTION**

Applicant has reviewed Patent Application Publication U.S. 2007-0144624 A1, published June 28, 2007, and determined that the publication is not correct as submitted to the USPTO. A review of the image file wrapper for this application, as currently appearing on the online Public PAIR system, indicates that there are two specifications and two sets of claims dated May 18, 2006. Comparison of the two entries indicates that the correct Specification is on line 41 (from the bottom) and the correct set of Claims appears on line 40 (from the bottom) and the correct Abstract appears on line 39 (from the bottom). The correct Specification includes an initial paragraph entitled "Cross-Reference to Related Applications" and a final section entitled "Example 30" comprising paragraphs 79 and 80. The correct Claims comprises claims 1 through 17.

The Applicant requests that the Patent Application Publication be revised to reflect the correct application as filed.
